# The Problem

## **Legal work is slow**

Lawyers spend days on manual search. Legacy tools have no AI, no semantic understanding.

## **Due diligence is fragmented**

10+ separate databases to check one counterparty. No single tool connects them.

## **Many separate sources**

Courts, parliament, registries, sanctions -- scattered across dozens of systems.

## **Risks found too late**

Hidden owners, sanctions violations, liabilities -- discoverable but never flagged.

# LEX AI Chat Pipeline

One service for legal research, case analysis, sanctions, ownership, and risk checks.

At the end of the pipeline -- **one clear picture**.

Legal Research

Case Analysis

Legislation

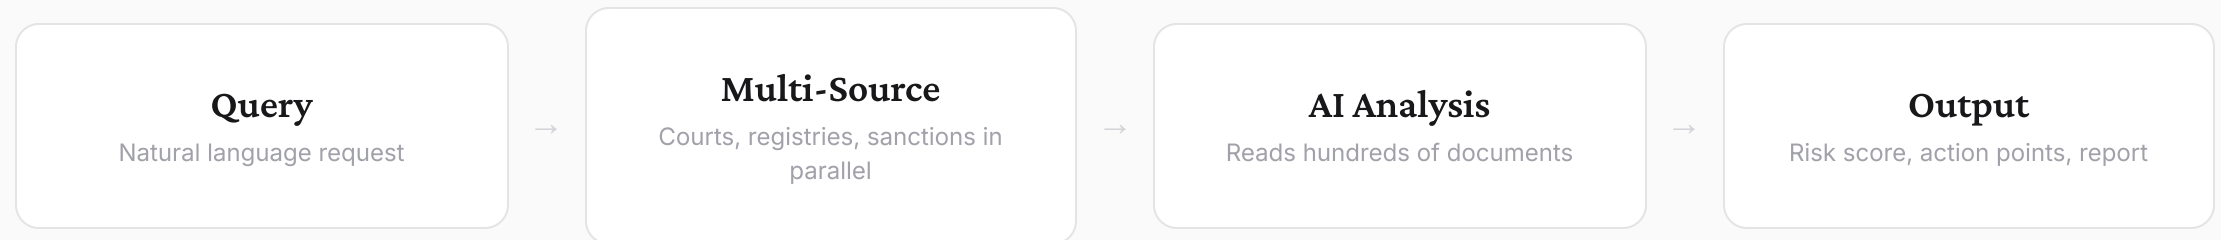

Sanctions Screening

Ownership Chains

Risk Assessment

# How It Works

One request. Many sources. Under 5 minutes.

# Data Moat

**130M+**

Court Decisions

**22**

Countries

**4M+**

Sanctions Entities

**810K+**

Offshore Links

ML pipelines for model fine-tuning and training.

Data quality and scale are our advantage.

5M Full-Text Indexed

2M Vector Embeddings

15B+ Breach Records

Ownership Chains

200K+ Legislation

# Technology

LEX AI uses **AWS, NVIDIA, and GCP cloud grants**  
to tune open models on the largest legal corpus in the region.

TypeScript / Node.js

Python / FastAPI

PostgreSQL + Qdrant + Redis

GPT-4o + Embeddings

React 19

MCP Protocol

Docker + CI/CD

118 AI Tools

# LLM Training Plan

## Fine-Tune

1

Millions of court decisions. Target: outperform GPT-4o on Ukrainian legal tasks.

## Scale

2

Larger corpus, jurisdiction adapters.  
100M+ decisions across 22 countries.

## RLHF

3

Feedback from practicing lawyers.  
>95% preference, <0.2% hallucination.

# Market Opportunity

TAM

**\$1.2B+**

Legal AI + Due Diligence

SAM

**\$120M**

Ukraine, CEE & Compliance

SOM

**\$8M**

2-Year Target

Few players combine legal AI and global due diligence.

We do both in one product stack.

# Business Model

Subscriptions plus API pricing.

LEX INDIVIDUAL

**\$29**/mo

Solo lawyers. Court search, AI analysis, legislation.

LEX + DUE DILIGENCE

**\$149+**/mo

Law firms. Full analytics + intelligence.  
Multi-user.

ENTERPRISE API

**Custom**

Pay-per-query. On-premise. White-label.

# Traction

**130M+**

Legal Records Indexed

**118**

AI Tools Built

**Live**

In Production

# The Team

**Volodymyr Ovcharov**

AI & Infrastructure

15+ years in scalable data platforms. Glushkov Institute of Cybernetics, NAS of Ukraine.

**Igor Kyrychenko**

Legal Domain & Compliance

PhD in Law. Ukrainian and international legal practice.  
Domain modeling.

# Partners, Pilots & Investors

Public beta is live today.
